Honorable Shelley C Chapman;

In Re. the bankruptcy of Patriot Coal;

I'm just one of many retired coal miners that is at the age where our health is going down. We worked for many years in the coal mines to earn our pensions and health care cards.

Now that we are getting older and our health is on the slide down. We now have to worry about what we earned and was promised.

As for myself and my wife our medications run well over \$2200.00 per month and there are are many of us in the same place.

I feel this case should be handled in one of the coal field states. Not in a city that has no idea what a coal mine is, let alone what it takes to mine the coal.

As for myself the 26 years I spent in mining coal was for PEABODY COAL. never even heard of Patriot Coal until I received a new health card.

Thank You,  
Randal E Underhill
