

October 3, 2012

Honorable Shelley C Chapman,

I am writing to you in behalf of what it would do to us to lose our insurance coverage that Patriot Coal is trying to take from us. Since I am not financially able to buy insurance for me and my wife which would lose her coverage completely. She also is unable to work due to health problems. The sicknesses we have developed in our older years have made it essential for us to stay under a doctors care. This is the time we need our insurance the most at retirement age.

I have worked in the coal mines for 30 yrs and paid for what benefits I receive and would really hate to lose them now. We are both on medications that is essential to our ~~bad~~ health. I hope you can help us in this.

Thank you very much,

Richard D Boggs
