

10-3-12

Dear Judge Chapman

I am writing you this letter concerning our medical cards from Patriot Coal. I was a coal miner for 20 years. I now have diabetes. I take medicine for and other health problems. So does my wife. She has high blood pressure and bad nerves. We both see a doctor for that. She takes blood pressure pills and Nexium for acid reflux. Having our medical card taken from us would mean no food to eat or medicine and still if we took the money for food we still could not get our medicine. It would not be enough. We barely get by as it is. So we pray that they don't take our medical card because without it we will just get sicker. We have no way of going to the doctor or getting medicine.

Thank you  
Union member of 7604 Edward Bailey  
District 17 Sandra Bailey

Edward Bailey

We hope you will help  
us keep our medical card
