

October 2, 2012

Honorable Shelley C. Chapman

My name is Gordon Tomblin I'm
a 61 year old disabled coal miner,

Due to an injury I received in
1987. Over the years since my Accident
my condition has only worsened.

NOW I have Diabetes which requires
5 insulin Shots daily.

Heart condition which required a Pacemaker.

Lungs that require Oxygen 24/7.

And Ulcerative Colitis, with ten to twenty
bowel movements a day.

If I lost my health coverage it
would be awful, I couldn't afford to pay
for my medications. Or treatment I need
for all my health problems.

Respectfully,

Gordon Tomblin

Gordon Tomblin
