Dear Honorable Chapman,

Losing health care would be a serious blow to both me and my wife. I now take 5 different medications for high blood pressure, high cholesterol and allergies; my wife takes medications for high blood pressure and high cholesterol. All of these prescription medications are covered by Peabody insurance; we are not sure what the cost would be without this coverage but we estimate it to be near \$500 per month. This additional expense along with a health care premium would be devastating to our budget. Our retirement plans included this "promised" and "worked for" benefit.

Please keep these facts in mind when making your decision.

Thank you.

Sincerely,

A handwritten signature in cursive script that reads "John A. Kuehn".
