

Dear Honorable Chapman,
I am a Widower of a Coal miner who spent
37 years underground, to make us a living
now daip it is hard to survive on what I draw
and if I didn't have the benefits of my insurance
I don't know what I would do, I am a
77 year old lady who needs a hip replacement
and have had to have two Cornea transplant
on my eyes, and I have to go to see the
dr's to make sure they don't reject. I Couldn't
go if I had to pay for my visits. I know if you
have parents who are seniors you would understand
what I am talking about. I know God will
direct you on your decisions. I am praying for
you. and ask God to Bless you and your family
Thank you for taking the time to read my
letter.

Sincerely yours
Betty Blackwell
