International Pres: Letter of Sept 28, '12

Dear Honorable Shelley C. Chapman

This letter concerns the health of my husband, Farrell, who has heart trouble, black lung and diabetes.

Should he lose his benefits would be devastating to him & his family.

The thought of losing his health care has a very emotional effect on him already.

Our prayers are that this will all be settled in a rightful manner.

Very truly yours,

Farrell B. Sudar
