

10-3-2012

Dear Honorable Shelley C Chapman,

I am writing in behalf of our medical insurance through Patriot Coal. I have worked in the mines twenty years and been disable due to accidents with the job. My wife and I are not financially able to maintain insurance on our own and are on serious medicine each month to assure our life. My wife would be out of help completely. Please help us to keep this insurance it is so important to our life. Our medication has to be taken on a daily basis. we could not do that on our own. Hope you see the situation this would put us in for we are getting old and have many medical situations

Jeremy Jenkins
