

Oct. 9, 2012

Honorable Shelly C. Chapman,

My name is Sherry N. Hager, I depend on my medical insurance, which my husband earned, to live. I have several medical conditions which I need medications to survive. I have mini-strokes, high blood pressure, arthritis, which I take steroid shots to be able to even hold my head up, I also take several meds for pain and stiffness just to get through a normal day. I am requesting that my insurance stay in force. Thank you for your time in this matter, I see several doctors and my shots in my neck are about 1600.00 per visit, which is more than our monthly income, I also would respectfully hope peoples health is still of the ~~up~~ utmost importance.
