

10-8-12

The Honorable Shelley C. Chapman:

I am writing to you today to voice my concerns over possibly losing my health care benefits.

I am a disabled coal miner, and my health problems are a direct result of the years I worked in underground coal mines for Peabody Coal Company in New Lexington Ohio.

My wife, and I are both dependent upon our health care benefits, and really don't know how we could have any quality of life without our medical care, and prescription drug coverage that we need so desperately, to manage and control our health issues.

I plead with you to take this into consideration when handing down your decision on Patriot's bankruptcy case, because there are ^(Change of Venue) many others who will be affected just as we will be.

Respectfully,

Herbert C. Stallard Jr.
