Dear

Honorable Shelley C. Chapman,

I retired from Peabody Coal Co. in 1988.
I'm not complaining, I've been blessed
but my health isn't very good now.

I'm seventy nine years old and have
diabetics, I had open heart surgery
in 1999, have lung problems and
have to take alot of medicine.

My wife is taking alot of medicine
also.

If they take away my health due. I
don't know how I will be able to
pay for it. So I hope you will have
Compassion for us elderly people
who have worked hard for our
benefits that were promised to us
for life.

Thank you

Sincerely,
