

Honorable Judge:

I would like to express to you my interest AND SADDNESS, AS TO the fact that Peabody Coal has spun off my health care to Patriot Coal. AND although Peabody is still the Largest Coal Co. It is trying to take a form of bankruptcy that will take my healthcare after my working for them for 27 years. If this is allowed to happen, it will DEVASTATE my family because my pension is not large enough to purchase a health care provider. Now that I am at the age where my health & my wife's health will surely need our Doctors care.

Please take this into consideration. Also why is this happening in New York where Peabody has NO mines?

Thanks for your consideration:
