

10-8-12

The Honorable Shelly C. Chapman,

Dear Ms. Chapman,

I am writing about the Patriot Banruptcy. My husband Charles Hall, is retired from the mining industry with 30 years. We are both 68 yrs. old and depend on our medical coverage. We are both diabetics, have high blood pressure, heart problems. We would not be able to pay for our medications that we take every month.

The company, promised the men insurance coverage for life. If it was taken away I guess we would have a early death. My husband worked hard all his life for these benefits.

In closing, I hope you will take in consideration all the people that depend on these benefits that the company want's to do away with.

Thank you
Charles & Norma Hall
