

To Honorable Shelly C. Chapman,

My prescriptions:

hydrochlorot
pericortin
ultram
metoprolol
ny drazine
propranolol
Lortab

I don't know which ones
I could do without. It
would really be a hard
ship on me if I have to
pay for them. I am in pain
all the time. I have
degenerative disc disease,
nerve damage, osteoarthritis.
Lots of times I can't sleep
for my pain. My husband
felt like I would be taken

care of until death. That
was the promise. Please
consider the widows living
on one income. It is
such a relief to know I
have health insurance. At
my age (75) to purchase
insurance it would really
be expensive, more than I
could afford. Thank you
for sending this.

Bless You
Anna G. Hendricks
