

10-9-12

Honorable Sully Chapman:

I am Charles Milligan,
I am a member of UMWA
having worked in the coal
mines in Western Kentucky.
I worked for over 20 years
because I liked the money
as well as the benefits
that UMWA offered. Now
I am older and my health
is failing and having this
insurance certainly takes
some of the load off my
mind.

A few years ago I broke a
leg and shortly after I almost
lost both hands. Three
years ago I had to have an
Acrota replacement. This
past July I had to have
a pace maker put in.
Now, I'm getting ready
for a knee replacement.
If I did not have UMWA

I would be in debt the
rest of my life.

I'm asking for mercy
on your part that miners
like me can keep our
insurance. Life without
it would be almost
impossible.

Sincerely
Charles Milligan
