

10.10.2012

"The Honorable Shelley C. Chapman"
Judge Chapman, Peabody Coal Co. shut
down the Harewood mining complex in
August 1986, at that time I had 37 years
service. Not being able to find
employment elsewhere I retired with
Peabody Coal to get a small pension and
medical benefits I was promised for a
life time, at that time I was 56 yrs. old.
I am now 82 yrs. old. My medical
problems are as listed.

"Heart Attack,"

"High Blood Pressure"

"Operation Large Cyst"

"Ball Bladder surgery"

"Colon Polyps (4 times)"

"Eye Lid surgery"

"Gastric Acid Reflux"

"Hearing Aids, My hearing
problems was job related." I have
heart monitoring tests when recommended
by my heart doctor. I am now on
4 prescribed subscriptions provided by
my provider daily.

2

My wife is also provided coverage by my provider, she is 79 yrs. old and has had health problems. She is required to take 7 daily prescriptions. My wife is awaiting appoint to Cleveland Clinic. The loss of our health and retirement would be distasteful to our existence. We are hopeful at our ages and medical conditions and 37 yrs. service our situation would be life threatening.

We would appreciate your consideration
Thank You
