

The Honorable Shelly C. Chapman

Please don't let Peabody-Patroit get away with this.

I worked hard 6+7 days a week for Peabody Coal so I would have a decent pension and good health care. I retired working all those years in coal dust + dirt. I have developed Asthma, had knee replacement and open heart surgery.

I need my health care.

P.S. Why would Peabody file bankruptcy in New York, when all their business are in St Louis + West Virginia

Thank you
James M Daugherty
