Charles W. Heflin retired Feb 25th
1992. Neck broken in mines was on
for retirement. Neck valve replaced
3 mo. later. Takes medication for
elevated blood pressure. Spine
neck surgery Mr Heflin has had
problems - his back + takes
much medicine. Has injections periodically
with monthly expenses as they are
w/cont service on Social Security
We really need insurance of
Peabody Coal Co.

If you take my retirement
and health benefits we
can't survive.

Widows + orphans most
certainly should be cared for
at present + in the future.

My wife Shirley E. is in ill
health and takes much medicine
The prognosis is not good
for a good recovery.

Your Honor Chapman, please
help all of us

Thank you
