

To the honorable, justice Shelby Chasman:

Your honor I am a retired employee of
Patriot Coal.

I took my early retirement, to ensure that
my medical insurance, and pension, would be
secure.

I worked the majority of my life for
these benefits, for my wife & I.

Your honor, in pleading this case, please
consider that corporations are not people.
Corporations can restructure and re-organize,
people can not.

Your honor, if you rule, that Patriot can
shed their responsibility for our health
benefits, you will be sentencing a vast
majority of us either a financial or a
medical death sentence.

Please take all of this in consideration!

Sincerely
Alfred Nelson Jr.
