

Dear Shelley C. Chapman
To Whom it may Concern

I am writing on request of where
Patriot Coal has filed Bankruptcy
So what it would do if we lasted on
Mrs. My husband just got a kidney
transplant in June of 2011.

He has to have lab work done once
a month. He sees his doctor out of
Charleston every 6 months so they can
keep a check on his kidney.

He also is a diabetic he has to use
Insulin. He also has to have
3 anti rejection medicine to take
everyday so his body won't reject
his kidney. He also has high blood pressure
he has to take medication for that.

I am the wife I also a diabetic
high blood pressure. that I have to see a
doctor every three months. I also take
Insulin. So you see how important
it is for us to keep our Card.

My husband has been thru a lot to get
his kidney, I would hate for him to
lose it if we lasted over it.

I would cut back on myself so he
could get the care he needs.

His Mrs Card is very important to him
So Patriot Coal or Peabody should be
held responsible for the Union Coal Miners

Sincerely your
Tommy - Ethel Watts
