To the Bankruptcy Judge,

I am writing this letter for my 85 year old father-in-law and my 83 yr. old mother in-law, Dudley and Alice Price.

Mr. Price was a coal miner for 40 years never working 1 hr. for Patriot Coal and now that the coal industry has filed for bankruptcy, it is just so hard to understand how these retirees and widows can have their health care taken away or even partially taken away, these old miners have always fought very hard to be guaranteed health care for themselves and their families for life. Now everyday they worry about what is going to happen if their insurance is suddenly gone. It is so unfair that they have to dwell on this constantly. My mother in-law has a lot of health issues, but she will put off getting treatment out of fear of getting stuck with a lot of medical bills that she definitely can't afford to pay.

Please help us keep the promise of our health care from "Cradle to grave". These old folks don't need all this worry on them in their last days on earth. Thank you, Patty Price ^{daughter-} in-law
