Your Honor

I am writing to tell you a little something of me and my husband. He started working for Peabody Coal Co 9-23-63, I started working for Peabody Coal Co 1975, He passed away 1-22-03 from lung cancer, and he thought when he died I would be taken care of after all his years working for them. He and I both retired from Peabody Coal Co., not Patriot or Arch Coal Co, we were promised health and retirement from them for all our years of service to them. When they take this away from us life will be real hard, utility bills, doctor, medicine, gas, insurance all rise every year so you will have to make a choice, food, meds, try to keep warm, just have to choose ~~which~~ which is most important. I have had a heart attack, stroke, high blood

pressure. I try to take care of myself
by staying thin, and exercising, I am
74 years old and need what Peabody
promised me for all these years of
service. Thank you for listening
to me.

Thank you
Carl S. Miller
