To:

Honorable Nathan A. Swartz-States

Tell Peabody & Arch to keep their promise to the men who worked so hard for them.

My husband worked 28 yrs. My Dad 35 years I have brothers, uncles + grand father who have put in many years of hard labor to the coal mines.

The Company made a promise to give life time insurance and retirement fees to these men for their hard work. They produced the coal they wanted made them rich and now they want to break their promise.

Peabody & Arch made Patriot Coal to get out of this. Patriot is refusing to keep the promise of wages, medical cards for workers & retirees and widows.

They are paying their lawyers close to 3 million dollars but cant pay widows & retirees. This is just a horrible shame. Being out of business is not the point. Its how Peabody & Arch Schemed to get out of the benefits and pensions they had promised in good faith. These men gave the best years of their lives to the coal company and

made them a lot of money. They worked hard, under horrible conditions, in a place & bet that the Company would not let their sons - brothers - fathers - grandfathers work. It takes special men & women to go to work in the deep dark under ground and so dirty and so hard. These men kept their part of the agreement now its time they keep theirs.

I dont think they realize what a toll this work has been on their workers. By the time they retire they are all broke down and wore out. From years of their bodies be abused in this hard labor. They need these benefits as so do I. Most of the medical conditions are because of their work. So its the Company's responsibility to continue with the benefits. We wont be able to buy medication and pay medical bills without it.

They worked and held up to their part of the agreement and so should the Company. These benefits were promised to them for all the hard work they did.

Please Make Peabody & Co. Keep the Agreement
