Untitled
To The Honorable Kathy A. Surrett States

I am writting in regards to my husband who worked for Peabody-Patroit Coal mine for thirty five years. He loved his job because, he was informed that upon retirement, he and his family would draw retirement and also medical insurance. He was not a college graduate, but he knew how to work hard, long, hours in cold weather and sometimes worked when he didn't feel like working. The reason was that he didn't want to let the coal company down. He did a good job for the coal mine.

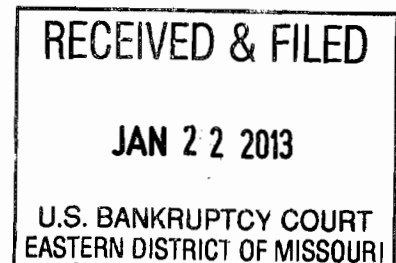

My husband passed away four years ago, believing his pension and Insurance woud be there for me (wife) to help me survive. I am seventy five years old now and unable to work at a job. I think its very uncaring and unfair to be cut from the benefits that our mates worked so hard for and believed in. Please help us, its in your hands now, and you are our only hope. Thank you.
