U.S. BANKRUPTCY COURT  
EASTERN DISTRICT OF MISSOURI

To Whom It May Concern:

I am writing in regard to a very devastating situation your decision could make on a vast number of families.

I cannot understand how you can possibly determine, this group continues to receive coverage they have worked for, and this group cannot. To me, this seems to be a bit discriminatory.

I continued to work longer with the understanding this would increase my pension, as my insurance card was supposedly locked in. Now I'm finding, if I had retired a few months earlier, my

livelihood could possibly be in better condition.

Since 2004 my wife and I have dealt with several life threatening health problems. Heart attacks, open heart surgery, a cerebral aneurysm, stroke, knee replacement, and other minor problems have plagued our retirement years. Had it not been for health care coverage and pension things would have been even more difficult. For this we are thankful.

Before making your final decision, please consider the families with similar or even worse issues it will affect. To think you spend the major part of your life working, planning, and believing you have your retirement years intact and have this snatched away is very devastating.

Remember, promises made are

expected to be kept. May God help  
you to make the right decision.

Sincerely,  
Robert C. Saddler
