

The Honorable Kathy A. Surratt - States

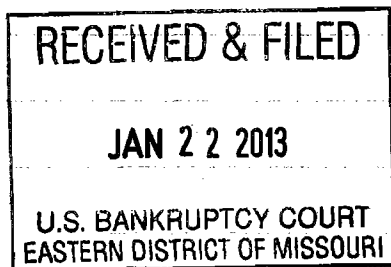

I am writing about my concern about Patriot Coal, threatening our medical benefits. I am a widow of about 16 years after my husband died. He worked in mines & jobs for the coal industry the last part of his life. We were promised health care for our remaining years. If I lose my medical coverage, I will in no way be able to buy insurance or pay out of my pocket. With Obamacare taking over the medical benefits we will really be in dire need of the Miner coverage.

So, please do all you can to help us keep our medical benefits.

Thank you.

Sincerely,

Ivalene Spencer,
widow of Luther Spencer
