

To Honorable Kathy G. Surratt - States

My forty some years I worked in the coal fields were spent working with Peabody.

I was working at Semingle coal mine in New Athens when Peabody purchased the mine from Northern Coal Company.

I worked with Peabody till I retired in 1988.

We went through many hard times, fighting for those precious benefits, Patriot is now trying to take away.

As you can see I had been retired long before Patriot was invented.

I see nothing Patriotic about a company trying to take away thousands of lives.

World War II Veteran  
Veteran of the coal fields.

Richard E. Jung  
Freeburg Illinois
