Your Honor,

I am writing to say that if the  
bankruptcy of Detroit and Eastern <sup>(Peabody)</sup> are  
allowed to succeed, it would cause  
a real hard ship on me and my family.  
With my medical condition I am no longer  
able to work. I worked in the coal mines  
31 years and I am a third generation  
coal miner. I was taught to work hard  
and keep promises I had made. You  
thought the company you worked for  
would do the same. I believed I would  
have a pension and medical coverage,  
now its all about to vanish. I sincerely  
hope you won't let them take that away  
from us. I have black lung and I  
need the medical coverage and pension  
to survive.

Sincerely,  
Charles L. Ellison
