I, James H. Looman, worked in the coal industry for 32 years and retired in 1986.

My wife, Betty J. Looman, and I planned our retirement around my pension from the coal industry and my good health care plan.

During our younger years, we were very healthy & seldom used the health plan. However, since I retired, I have had several surgeries including heart surgery. I am now in need of knee surgery on both knees but was told by my doctor that I was not a good candidate for this surgery because of my heart. I am now going to pain management for my knees. My wife has had several surgeries and is in poor health also.

Having said all this, it would be devastating if I lost even a portion of my pension or health care. I was promised these things for the rest of my life when I retired.

(over)

Therefore, I would appreciate  
any consideration & help you can  
give me on this matter.

Thanking you in advance,

I remain,  
Sincerely yours,

James B Foreman

P.S. My pension is considerably less  
than the retirees receive now. I  
did not get a cost of living raise  
annually. It has remained the same  
since 1986. Therefore since household  
expenses & cost of living expenses are  
increasing every year, my pension  
is necessary for our living.
