Re Case: 12-51502

I am writing on behalf of my husband asking you to please rule in favor of all the miners whom have worked to be able to keep thier health care that has been agreed to in the contract.

I would be in terrible shape without the benefits. I currently take 11 prescription medications. This was due to a heart attack July 11, 2000 and three rounds of cancer beginning with chemo and continuing three times since beginning May 7, 2008. I would ask you on all our behalfs to please take a long hard look at the decision you make.

We have given up a lot in salary over many contracts so we could maintain our insurance. If we had larger pay like many Union employees our retirement benefits would be much higher. Instead we planned to have insurance for our working and retirement years.

Please do not let Patrick Get By - Getting R.I.D of our insurance.

You are the one making decisions -
Don't let the UMWA employees down.

Everett E. Gilham Retired Miner
