CLERK OF SUPREME COURT
EASTERN DISTRICT OF MISSOURI

To Judge - Honorable Kathy Surratt: States
I am writing to you asking
you to please put yourself in
all the business place, that will
lose their insurance & Pension
if you do not rule in our favor.
You know how many years
these men had to work to secure
their insurance & Pension.

My dad drove 75 miles each
way until he was 70 years old to
secure their insurance.

While you are listening to all
this to make your decision, ask
yourself what would I do if your
insurance was suddenly taken
away.

You know life is hard enough
today with out another thing added
on to our worries.

Have you ever had Cancer?
Well I have, it is in remission
right now but, I have a long
way to go and you do not know
at what time it will return.

A lot of people will not be able
to go to the doctor & just die without
treatment.

Just think how many will not be doctored properly with Cancer, heart trouble, and many more diseases, especially the age most of the men are.

So please do not take this lightly, think of the little people instead of the big Coal Companies. as this will effect our doctors, drug stores, hospitals and any business that the nurses spend their money.

No one wins if you take our insurance + Pensions.

I feel bankruptcy will soar so then what will this do to the banks + financial institutions. Every one loses.

So I am praying that this will resolve it's self. and we will have this worry off our back

So please pray and search your heart before you decide.

Most of us would be unable to get other insurance due to prior illnesses

Thank you
Arann Coombs
