To The Honorable Kathy A. Suratt - States
Re: Case No. 125102

I am the widow of a retired Coal miner who passed away in 1999, results of Black Lung. He worked 20 years for Arch Coal/ Magnum and retired in 1993 after the Coal Act was passed, which guaranteed our health benefits for lifetime.

I receive the health benefits from Patriot Coal now because they took over the responsibilities of Arch/ Magnum Coal Companies and the promises that were made to the retirees and widows.

I have been a diabetic since 1981. I am on insulin, three shots a day and test three times daily. I also have Chronic Bronchitis and Spina Bipida. I have nerve damage in my legs from by-pass on my legs. I have ^{to} take nerve + circulation medication for that, also for Cholesterol and blood pressure. I have already charged

some of my medication and the need for my diabetic supplies.

My husband's family and my family have been miners for generations, both sides of the families; ever since they had to fight for what we have today.

They have put their lives on line to fulfil the needs of our nation and the companies they worked for, making them richer. Now they are trying to take away everything they worked and died for. They deserve better treatment. They (we) have struggled long enough.

I am 81 yrs old and I need my insurance (benefits). Please, I beg you, don't let the Coal Companies do this to us.

Thank you for your concern,
Sincerely,

Patsy Caldwell
