States Re - Case 12 - 51502

Thomas B. Eagleton U.S. Senator

I am very sorry Peabody Coal and others are trying to do away with (Health Benefits) from employees you know was promised them. Most all of the employees gave the best part of their lives for them. Peabody set up Patient coal as a dummy co. so they could get rid of them. My husband never worked a day for Patient. He had many years with  
Over

Perbody Cool before he retired, he stayed with Perbody till everything was finished going plan to place doing relocations for them but he got his check from District because they close down where he worked.

I would like to know how these older miners that gave them<sup>best</sup> years of his life is going to survive or do they won't them to lay down and die. Perbody made Bellini in 2012 and there is millions of people that will be without medicine and love their home + the ~~economy~~ <sup>economy</sup>.

will get bad and <sup>Medicare</sup> Medicare will  
have so many sign up it will  
go broke quick. My husband and I  
worked all our lives (since teenager) to  
build year to retire and this was promised  
with benefits. If Peabody gets by with this  
the USA is going to be in worse shape  
than they are already. Peabody is the largest  
co. in the U.S. every Co. through out will  
follow them if they win. I hope you  
don't let this happen. I hope you can read  
this, the lady (from Ohio) told me to see this page  
to you.
