Hear Judge Kathy Surratt - States

I am writing to you in regards to the Patriot Coal Co wanting to take away all our pensions and insurance. My husband Lou Forbes worked for Peabody everyday and any time they needed him. Never complained and was liked. Now he has one fake hip and 2 knees and full of artheritis. We are in our 77 + 79 yrs. old. I am a type 2 diabetic have to take medicine + the strips. Patriot knew all about this when they bought out Peabody Coal. If you pass this for them other companies are going to do it. We have lost a son to congestive heart failure at 42 yrs. Then last year in September we lost one of our daughters Sheila age 52 of cancer. My nerves are shot and now we have to worry about if we will have any money or insurance. My nerves are shot over this and losing my daughter. I plead with you please do not let them take our pension or insurance away. It will affect a lot more business and people than just us. Lou worked there for 32 yrs. I will pray for you and hope you will help us and go our way.

Thank You!

Sincerely,  
Mrs. Lou Forbes
