RELIEF REQUESTED

2. By this Joinder, Carroll and Delta join in the Objection and requests an Order denying the Motions.

ARGUMENT

3. Carroll and Delta are creditors having operations and customers in various states and SDNY is the most convenient forum for creditors and other parties to this action. It is asserted that SDNY is a Court which, because of its size and staffing is uniquely suited to a complex bankruptcy such as this combined case.

WHEREFORE, Carroll and Delta request the relief requested to join the Objection to the Motions and such other and further relief as is just and proper.
