

Dear Honorable Shelley Chapman,

I am writing you in regard to the Patriot Bankruptcy trial. I feel the trial should be moved to West Virginia as it pertains to coal mining.

I have had bypass surgery in 1999 and my wife also had bypass surgery in 2009. We both take many medications. It would be financially devastating to lose our pension and health care benefits in our so called "golden years." I am 72 and my wife is 73 years old.

I hope you take everything in consideration before you let Patriot Coal take the easy way out.

May God bless you.

Sincerely,

Joseph Guion
