

October 2, 2012

Honorable Shelley C. Chapman.

This letter is in reference
to Patriot Bankruptcy.

I worked for Peabody
Coal for 25 years and
retired.

Since my retirement they
have changed to Patriot,
unknown reason to the
Coal Miners.

We hope you understand
that a lot of Miners have
serious Lung Disease from
the dust and dirt from Coal.

My wife has a serious
lung disease and needs
anti biotics and steroids at
all times.

This has put our Medical Insurance in jeopardy, which we worked hard in order to have this provided for us.

This would put so many people where they could not afford the medical treatment they need so badly.

Please consider us (Coal Miners) in your decision

Thank you!
