Pg 1 of

Your Honor,

I'm writing to you concerning my health care, with

Patriot,

I am a widow, 82 yrs old next month. My husband was a coal miner for 45 yrs. all underground. We had a good life together. He was a hard worker. I lost him May 23, 1994. Really a sad hard time for me. I wondered how I could make it without him. But he always told me we had the best insurance anyone could have. We were promised health care as long as we lived.

Now all of a sudden I'm really worried about it again. I have COPD. Arthritis all over my body. Can't hardly get out of bed sometimes. I take oxygen for my lungs. I have high blood, I have Vertigo.

Your Honor I can't pay what I would have to be out with my insurance. I don't have anyone to help me. I'm doing the best I can. But if my ins. was taken, what could I do? I feel like you are a good understanding lady. God will bless you for helping these poor miners and widows.

Thanks your Honor,

for listening to me. I hope you can read my letter my hands are kinda shaky.

Thanks again.

Mrs. Marcella Douglas
