

Oct. 2 - 2012

The Honorable Shelley C. Chapman:

I have a son that is disabled and him and I appreciate the health care so much. It would be so traumatic if loss came to health care I don't think there would be a quick answer other than turn to sources that have stood up for our benefits as well as us standing up. My son and I depend very much on our UMWA Health Care and hope my son will be able to continue health care benefits if I should decease before him. Whether it be serious or not serious, we need our health care. Hospital stays and trips to doctors offices.

Sincerely - Thank you
Marion Vincent
