To The Honorable Shelley C. Chapman,

I am writing this letter to express my concern about our health care. My husband is residing in a nursing home facility at this time. The cost of this service is very expensive and without our health care would be a major hardship on our whole family. We are both in our eightys and shouldn't have to have the burden of this worry. Our doctor and medicine expenses would be impossible to manage. I pray you take into consideration our story and the stories of many other families facing this problem also.

Sincerely,
