The Honorable Shelley C. Chapman

Dear Judge Chapman:

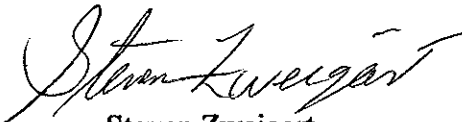

I am writing to you in regard to the International Union against Peabody, Arch and Patriot. It would be a real hardship to me if I would lose my health care benefit.

I have Chronic Lymphocytic Leukemia along other health problems and I depend on my health benefit to pay for my medical needs.

I worked hard in the coal mine. When it came time for contract negotiations; instead of fighting for better pensions (my pension is only \$663 a month), our union officials were able to get us good health care benefit.

I want very much to be able to keep my health care benefit, as I need it very much to pay for my medical expenses.

Respectfully,

Steven Zweigart
